Response to Amendment

Claim Rejections - 35 USC § 112

1. Claims 1-18 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The original specification does not provide support either explicitly or implicitly for the phrase "flowing substantially parallel to the top and bottom surfaces" of the semiconductor chip as recited in claims 1 and 10. The original specification also fails to provide support for "measured in a plane substantially parallel to the top and bottom surfaces". The specification merely talks about the gate relative to a chip that is not a part of the apparatus claim. The newly claimed subject matter, regarding parallel flow to the top and bottom surfaces and measure in a plane substantially parallel to the top and bottom surfaces, is clearly a negative limitation without concrete support in the original specification. It is clear that the negative limitation is in regard to the Suetaki reference see the paragraph bridging pages 12 and 13 of the response.

Response to Arguments

2. Applicant's arguments with respect to claims 1-18 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
